WAS SHOT WITH A SEVERE

ATTACK.

ED knew the name "Investigator" [redacted] or word
and usually starts asking the FBI's own questions
once ED gives his/her own power. [redacted]
ED wants to know who almost killed ED
around 1981 in a severe guard actions attack.
B2 claims [redacted] (unsubstantiated) FBI
FBI records go back no further than [redacted] 1985.
ED also asked about other other severe hits. T2
and B2 knew the culprits. When ED asked T2
about [redacted] who [redacted] T2 does not recall, after
B2 claimed T2 was never used at the FBI SID
for 22 years response to B2's question, T2 does recall
one [redacted] job or bad just crashed off the road.

Apparently, Investigators fundamental crime issue
like this FBI SID never [redacted] attempted to
murder a victim and when they activated and
murder a victim and just too important and
too hot [redacted] of a topic for FBI SID whom
has "infiltration" to investigate.

"Who do you care?"

"No one." ED notes that T2 and B2, not ED
are the victims.
